

ECONOMICS

TERM 1 content and skills	TERM 2 content and skills	TERM 3 content and skills	EXTENDED CURRICULUM (trips/visits/after school activities)
Year 10			
Learners are introduced to the fundamental economic terms and concepts. Learners will apply these to investigate and explain how markets work in contemporary and historical economic contexts.	Students will study the different roles and perspectives of the main economic agents (consumers, producers and the government) and how they interact in the economy.	Learners will develop the ability to use and interpret quantitative data to justify economic decisions. They will learn to appreciate that all economic choices have costs and benefits. This will encourage them to consider moral, ethical and sustainability issues that arise as a result of the impact of economic activity in a range of national and global contexts.

Year 11			
Learners have an understanding of the main economic objectives and role of the government in achieving them	Learners will investigate the effects of economic policies on markets. They will use and interpret quantitative evidence, such as unemployment figures, in contemporary and historical economic contexts.	Students will learn to appreciate the importance and impact of international trade by analysing data such as quantitative information on exports and imports. Learners are encouraged to consider moral, ethical and sustainability issues that arise as a result of the impact of economic activity in a range of national and global contexts.
