

Our Curriculum Rationale and Organisation

At Comberton Village College, we are firmly committed to offering our pupils a broad and balanced curriculum. We see the curriculum as our most fundamental tool in ensuring that pupils can learn those concepts and access that body of knowledge that will see them succeed throughout their life, including - but not limited to - at examination points. We use our curriculum to address knowledge gaps, thereby removing the barriers that some pupils face, whether as a result of SEND, social disadvantage or prior learning.

Our curriculum is central to our commitment to enable children to succeed. We therefore offer a range of meaningful courses and qualifications to suit all our pupils, which is under continuing review. We believe fundamentally that children deserve to study a wide range of disciplines throughout a three-year Key Stage 3. Key Stage 4 options choices are made in Spring of Year 9, for study during a two-year Key Stage 4. We wholeheartedly embrace, for all pupils, the study of the arts (Music, Art and Drama), humanities (including Religion, Philosophy and Ethics), the sciences (including Computer Science), Modern Foreign Languages, Design Technology, PE and PSHE, alongside an appropriate allocation of time to Maths and English fully to teach these subjects in an academically rigorous way.

Not only do we provide strong academic challenge through the disciplines we teach, we aim also to develop our pupils into **confident** and **capable** members of society and **caring** members of our community. Through suitable challenge to achieve as highly as they can, we want our pupils to become resilient and develop a love of learning that will last a lifetime. Through our academic and pastoral curriculum and the extensive experiences from our wide range of after school activities, trips and visits, we aim to enthuse, inspire and motivate and provide our pupils with the skills to enable them to stay safe and thrive in the modern world.

Key Stage 3 Offer

All pupils in years 7 to 9 study English (language and literature), Maths, Science, Modern Foreign Languages, Design and Technology, Computer Science, Geography, History, Expressive Arts (Art, Drama and Music), Physical Education, RPE (Religion, Philosophy and Ethics) and PSHE. Where a pupil is unable to access the full curriculum for reasons such as SEND or medical reasons, a personalised curriculum is devised that may not include all the above subjects. Full details of what is taught to each year in each subject is available in the curriculum area of our school website.

Key Stage 4 Offer

Every pupil has access to a curriculum that is broad, balanced and provides a wide variety of choice for Post 16 Education. All pupils study GCSE examinations in English Language, English Literature, Mathematics and Combined Sciences (unless taking the 3 Separate Sciences). The school has a clear expectation that pupils should continue to study a Modern Foreign Language at KS4 unless there

are exceptional reasons why that would not be appropriate; for a small number of KS4 pupils, additional literacy lessons are provided. All pupils study 3 further GCSE examinations (and other qualifications at an equivalent level) taken from a wide menu of subjects. Pupils are also able to study additional GCSEs through our extra-curricular provision, for example Art or Psychology. The most able mathematicians may also be entered for further qualifications, including GCSE Statistics. Those pupils who wish to improve their mathematical skills may also access free tutoring outside of the school day.

The school does not insist that every pupil chooses subjects to meet “EBacc” requirements, although a significant majority of pupils do this through their choices. The full details regarding the KS4 curriculum provision are set out each year in the options guidance booklet, which is available on our school website. There is a strong and supportive pupil guidance process to assist pupils in making the best choices for courses to study in KS4.

Our examined curriculum is supplemented by a strong core offer of non-examination courses:

Computing – Key KS4 core curriculum content is delivered through the pastoral (tutor) programme and collapsed conference days. English, Maths, Science and PE also have responsibility for delivering different aspects of the core computing curriculum.

Personal, Social and Health Education – The KS4 PSHE programme is delivered in English and Maths sets through fortnightly 50-minute lessons over KS4 by specialist staff. These are supplemented by collapsed timetable conference days and our pastoral (assembly and tutor) programme which cover citizenship and careers information, advice and guidance, work related learning and further PSHE content. All departments include CEIAG within their KS4 offer.

Physical Education - All pupils follow timetabled core PE.

Religious & Philosophical Education - Our core RPE programme is delivered through a programme of 6 conference mornings (20 x 50 minute lessons) over KS4.

Comberton Sixth Form (CSF)

Students applying to the CSF are able to access a wide range of A-level subjects and four Level 3 BTEC courses. Most students study three A-levels but there is the opportunity to take four A-levels for suitably qualified students. As well as the A-levels or BTEC, students are encouraged to also take courses such as Core Maths, Global Perspectives (pre-U) and the Extended Project Qualification as well as an enrichment programme which includes many sporting activities. All students are assigned to a tutor group and receive regular support from the tutor through a combination of one-to-one tutorials and fortnightly group meetings. In addition, all students partake in a Personal Development programme that includes aspects such as healthy lifestyles, relationships and driving awareness, as well as careers and university support.

Extended Curriculum

The school is committed to offering a wide range of extra-curricular activities. Extra-curricular activities are on offer within most departments of the school, together with the opportunity to participate in the Duke of Edinburgh Award scheme. Pupils are encouraged to participate in a wide range of extra-curricular activities and the timetable of available activities is published termly to both pupils and parents and is available on the school website. Where there are appropriate visits/trips, the school will endeavour to make it possible for all relevant pupils to attend. The Trips policy sets out our aims.
